

## Minnesota Public Library Report, Guide to Data Elements

This guide will familiarize you with the data elements for the Minnesota Public Library Annual Report.

Minnesota's public libraries are required by law ([Minnesota Statutes, section 134.13](#)) to submit annual reports to the Minnesota Department of Education by April 1 of each year. Libraries enter their data using an online tool, LibPAS.

Please complete your report using information for January 1 through December 31, 2021, unless otherwise specified. Financial data should be reported for the fiscal year that ended in calendar year 2021.

### Changes for 2021

All changes to the 2021 report, whether new elements or expanded explanations, are highlighted in yellow throughout this guide.

**Visits, Reference, Users:** New data elements have been added to note whether you are reporting computer and wireless sessions based on actual counts, or on estimates.

**Programs, Recordings, and Activities:** To align with new federal-level programming definitions, the Programs, Recordings, Activities section is expanded with new age categories and new categories for onsite or offsite programming. Also, the reporting period for views of recorded programs is the first seven (7) days after the program is posted.

**Circulation:** A new data element for tracking the circulation of physical items that are not print or audiovisual has been added.

Given the major changes to the program elements in particular, we realize that you may not be able to provide a reasonable estimate for some data elements. In this case, you have the option to mark "not known." Please do report as much as you reasonably can to keep this historical record going.

We are here to help! We appreciate that filling out this report can be time-consuming and laborious. If you have questions about how to interpret something, don't hesitate to reach out to Verena Getahun at 651-582-8714 or [verena.getahun@state.mn.us](mailto:verena.getahun@state.mn.us).

## Completing the Report

As you complete the report, you will need to distinguish between two levels: data for **library administrative entities** and data for **library outlets**.

- An *administrative entity* is the agency that is legally established under local or state law to provide public library service to the population of a local jurisdiction. Administrative entities can have one or more outlets that provide direct service to the public.
- *Library outlets* include central libraries, branch libraries and bookmobiles.

Data elements for outlet-level information are indicated by an “m” in the field code (as in “P06m Visits”).

If you are filing this report for a single-location library, enter data as if your library is both an administrative entity and an outlet. Where possible, enter data at the outlet level; LibPAS will “roll up” the data to the administrative entity level.

For your convenience, information in some data elements is pre-filled in LibPAS with the previous year’s data. If the pre-filled answer is incorrect, please update. There are some data elements you will not be able to update:

**Calculated:** Information entered at the outlet level will usually be automatically calculated by LibPAS into a total for the administrative entity.

**Locked:** Some pre-filled data elements are not expected to change from year to year, and so are locked. If any locked fields needs to be changed, please contact Verena Getahun ([verena.getahun@state.mn.us](mailto:verena.getahun@state.mn.us)) at State Library Services.

In some cases, you will not have a number to enter, either because your library doesn’t offer a particular service or resource, or because your library does not know or cannot collect the requested data. In the first case, you should type zero (0) in LibPAS; in the second, you should check the “not known” box. When you check the “not known” box, LibPAS will fill the field with “-1.”

When you...	LibPAS records...	
...type “0” →	0	Zero means, “We have none of this item” (for example, the library does not have a website).
...check “Not known” →	-1	“-1” means “We don’t know the answer, don’t collect the data, or can’t get the data right now.”

Items marked with an asterisk (\*) are required federal data elements that are submitted to IMLS for the Public Libraries Survey.

### **G23** <sup>Locked</sup>) **Administrative Structure Code**

Pre-filled with assigned administrative structure code. If your library's Administrative Structure Code has changed, contact State Library Services to update.

OTH Other

**G26) Did the legal service area boundary change?**

Pre-filled with *No*. Select *Yes* if there has been any change to the boundaries of the library administrative entity’s legal service area during the reporting period.

*Note: A change may result when a municipality annexes land, when a municipality in a county becomes an independent city or its own county, or when an administrative entity contracts to provide public library service to a geographic area other than the geographic area that it was established to serve (e.g., a municipal library contracts to serve county residents).*

**COVID-19 Response**

The COVID-19 pandemic that began in early 2020 has continued to affect libraries and their communities throughout 2021. This series of Yes/No questions, added for the 2020 annual report, remains relevant for the 2021 report as a way of noting the direct effects and response to the pandemic.

**Facilities and Internet Access During the Pandemic**

**V01) In 2021, were any of the library’s outlets physically closed to the public for any period of time due to the pandemic?**

An outlet is considered physically closed when the public cannot access any library buildings or bookmobiles, regardless of staff access. A building can be physically closed but still offer virtual, Wi-Fi, or “curbside” services outside the building.

**V02) In 2021, did the library add or increase the number of mobile hotspots for circulation?**

If your library provides mobile hotspots for checkout (which some libraries were doing before the pandemic), answer *Yes* here. The circulation of those hotspots should be reported under *Other Physical Item Circulation*.

**V03) In 2021, did the library add or increase distribution of mobile hotspots?**

Many libraries began or ramped up distribution of mobile hotspots during the pandemic. This is different from circulation of hotspots in that the hotspots are not being maintained by, or returned to, the library.

**V05) In 2021, did the library provide Wi-Fi Internet access to users outside the building at one or more outlets?**

Includes “parking lot access,” bookmobiles or other mobile facilities with Wi-Fi capabilities.

**V06) In 2021, did the library increase access to Wi-Fi Internet outside the building at one or more outlets?**

Includes “parking lot access,” bookmobiles or other mobile facilities with Wi-Fi capabilities. Increasing access could mean removing restrictions on sign-in authorizations, expanding router reach, leaving Wi-Fi service on 24 hours, installing or moving access points to promote or improve external access, etc.

## Services During the Pandemic

**V07) In 2021, did library staff continue to provide services to the public when the building was physically closed to the public due to the pandemic?**

Services to the public can include activities such as the following, regardless of the location of library staff when they provided services (i.e., working from home or in the building that was closed to the public):

- answering calls, emails, or texts with answers to information requests from the public;
- hosting virtual programming or recorded content;
- offering “curbside,” delivery (mail or drop-off), or drive-thru circulation of physical materials;
- managing IT services to ensure external Wi-Fi access; and
- providing other types of online and electronic services,

**V08) In 2021, did the library provide reference service via the Internet or telephone when the building was physically closed to the public?**

Refer to the definition of Reference Transactions (P07). Includes references service provided via email, chat, and text.

**V09) In 2021, did the library provide ‘outside’ service for circulation of physical materials at one or more outlets?**

Include any contactless or minimal contact provision of circulation items. Similar terms could include curbside, lobby, vestibule, or porch pickups, delivery (mail or drop-off), drive-thru windows, etc.

**V14) In 2021, did the library allow users to complete remote registration for library cards?**

## Staffing During Pandemic

**V15) In 2021, did any library staff work for other government agencies or nonprofit organizations instead of, or in addition to, their normal duties during the pandemic?**

Include reassignments to other government agencies (e.g., to process unemployment claims), as well as other activities such as the use of library staff to distribute school lunches and other materials. Volunteering during work hours would count but volunteering off hours would not.

**V16) Did any library staff work remotely in 2021 due to the pandemic?**

**V17) Were library staff placed on paid or administrative leave in 2021 due to the pandemic?**

**V18) Did any library staff work a reduced number of hours in 2021, whether by choice or by necessity, due to the pandemic?**

**V19) Were any library staff furloughed in 2021 due to the pandemic?**

**V20) Were any library staff laid off in 2021 due to the pandemic?**

**V21) Did any library staff quit or choose early retirement in 2021 due to the pandemic?**

**V22) Was a hiring freeze instituted at any time in 2021 due to the pandemic?**

**V23) Were any vacant library positions eliminated from the 2021 budget due to the pandemic?**

## Comments

### V24) Comments on COVID Response

This is a spot to include any narrative, lengthy or brief, about how your library experienced or responded to the pandemic in 2021. There is a 5,000 character limit, which is roughly 800 words.

## Visits, Reference, Users

### Population

#### P01m / P01<sup>Calc.</sup>) Population of the Legal Service Area

Enter the number of people who live in the geographic area that your library was established to serve and from which (or on behalf of which) it derives revenue. Include the population of any additional areas that are served under contract. Please use the [Census 2020 redistricting data](#) for the counties, cities, or townships that make up your library's service area. Total population numbers are found in the column labeled POPULATION\_2020. These data are made available through the [Minnesota State Demographic Center](#).

### Registered Users

A registered user is a library user who has applied for and received an identification number (e.g., barcode) or card from your library. Your library has policies that determine borrowing privileges and access to other library resources.

Include registrations for temporary or electronic-only cards (for example, Overdrive Instant Digital cards).

*Note: If your library uses an automation system that is managed by a federated regional public library system, the regional system may be able to provide totals.*

#### P05) Year in Which Registered User Records Were Last Purged

Enter the most recent year in which registered but inactive users were deleted from the patron database, for example "2019". Check the "not known" box if patron records have never been purged or if the last date is unknown.

#### P02m / P02<sup>Calc.</sup>) Registered Users - Residents

Enter the number of people who live within your library's legal service area who have registered to use your library. City, township and/or county property taxes from registered users' households support your library.

*Note: If resident and reciprocal borrowers cannot be counted separately, enter the total number of registered users here.*

#### P03m / P03<sup>Calc.</sup>) Registered Users - Reciprocal

This question is intended to reflect the approximate number of people who take advantage of the reciprocal borrowing compact. Enter the number of people who live *outside* your library's legal service area who have registered to use your library. City, township, and/or county property taxes from reciprocal users' households do not provide direct support to your library.

*Note: If residential and reciprocal users cannot be counted separately, check the “not known” box. Report the total number in P02/P02m.*

### **P04m<sup>Calc.</sup> / P04<sup>Calc.</sup>) Total Registered Users**

Total number of resident and reciprocal users.

## Visits and Reference

### **P60) Visits Reporting Method**

When reporting visits to your library, do you use an annual count (e.g., door counter), or an annual estimate based on a typical week or weeks? Select one of the following:

CT—Annual Count

ES—Annual Estimate Based on Typical Week(s)

### **P61) Reference Transactions Reporting Method**

When reporting reference transactions at your library, do you use annual count or an annual estimate based on a typical week or weeks? Select one of the following:

CT—Annual Count

ES—Annual Estimate Based on Typical Week(s)

### **P06m / P06<sup>Calc.</sup>) Visits**

Enter the total number of people who entered the library or bookmobile during the year.

Do not include curbside pickups as visits; count them under P59) Contactless Visits. Do count any appointments to enter the library, whether to use computers or browse, as visits. If your library uses sample weeks to estimate visitor count, and you were not able to construct a reasonable estimate for 2021, check the “not known” box.

### **P07m / P07<sup>Calc.</sup>) Reference Transactions**

Enter the number of reference transactions during the year.

Reference Transactions are information consultations in which library staff recommend, interpret, evaluate, and/or use information resources to help others to meet particular information needs.

A reference transaction includes information and referral service, readers’ advisory, on-demand and unscheduled individual instruction and assistance in using information sources (including websites and computer-assisted instruction). Reference transactions do not include formal instruction or exchanges that provide assistance with locations, schedules, equipment, supplies, or policy statements.

Information sources include print and non-print materials, online databases, catalogs and other holdings records. It also includes communication or referral with other libraries, institutions and people inside and outside the library.

Duration should not be an element in determining whether a transaction is a reference transaction.

Do not include directional questions or questions about library rules or policies. Examples of directional questions are "Where is the rest room? I'm looking for a book with the call number 811.2 G25. Can you help me make a photocopy?" An example of a rule or policy question is "How late are you open?" Do not count patron interactions to set up or explain curbside service as reference.

### **P59m / P59<sup>Calc.</sup>) Contactless Visits**

Enter the number of patron visits to access the collection or printed items. Includes contactless or minimal contact provision of circulation items. Similar terms could include curbside, lobby, or porch pickups, delivery (mail or drop-off), drive-thru windows, etc.

If patrons came the library to access external Wi-Fi, that activity will be counted in wireless sessions, and therefore shouldn't be counted here. Similarly, interactions via phone or chat reference will be counted under reference, and so should not be counted here.

Pickups or in-person requests at the bookmobile can be counted as contactless visits, if patrons are restricted from entering the bookmobile.

## **Public Internet**

### **P08m / P08<sup>Calc.</sup>) Public Internet Computer Sessions**

Enter the total number of sessions (uses) of the library's public internet computers during the year. A session is an uninterrupted use by an individual of a library computer connected to the internet. Please provide the total number of sessions during the last year. Count each distinct use (log-on) as one session, regardless of how long the session lasted or if the same user logged on more than once. Do not include wireless access by personal mobile devices.

If you offered computers for public use outside the building, you can add those to the count of *Public Internet Stationary Computers*. If it's possible to track login sessions on these computers, add that count to *Annual Public Internet Computer Sessions*.

Many libraries offered access to computer by appointment only. Include these sessions here; there is no need to track sessions-by-appointment separately.

If your library uses sample weeks to estimate computer sessions, and you were not able to construct a reasonable estimate for 2021, check the "not known" box.

### **P09m / P09) Public Internet Computer – Usage Type**

Pre-filled with whether or not your library offers uses such as word processing or catalog access in addition to internet access on public computers. Choices are:

The number of Public Internet Computer Sessions is limited to internet use only.

The number of Public Internet Computer Sessions includes other types of computer use.

**P62) Public Computer Sessions Reporting Method**

When reporting public computer sessions at your library, do you use annual count or an annual estimate based on a typical week or weeks? Select one of the following:

CT—Annual Count

ES—Annual Estimate Based on Typical Week(s)

**Wireless Sessions****P10m / P10<sup>Calc.</sup>) Wireless Sessions**

Enter the number of wireless sessions provided by the library's wireless service during the year. Include wireless access by personal mobile devices.

If your library is providing wireless access to the Internet in temporary or alternate locations, such as a bookmobile or mobile hotspots in a parking lot (not circulated), include the number of sessions initiated from those locations, if available.

If your library does not count wireless sessions, or you were not able to construct a reasonable estimate from sample weeks for 2021, check the "not known" box.

**P63) Wireless Sessions Reporting Method**

When reporting public computer sessions at your library, do you use annual count or an annual estimate based on a typical week or weeks of hardware logging or network scanning? Select one of the following:

CT—Annual Count

ES—Annual Estimate Based on Typical Week(s)

**Website Visits****P32) Website Visits**

Enter the number of visits to the library's website during the year. Visits represent the annual number of sessions initiated by all users from inside or outside the library to the library website. The library website consists of all webpages under the library's domain. A website "visit" or "session" occurs when a user connects to the library's website for any length of time or purpose, regardless of the number of pages or elements viewed.

Usage of library social media accounts such as Facebook or Twitter should not be reported here. If your library does not have a website, leave this field blank and choose "not applicable" from the drop-down to the right of the field.

If you do have a website, but did not count visits, please choose "not known" from the drop-down.

## Circulation

### Physical Circulation

Report the total annual circulation including renewals of all physical library materials of all types. Count all physical materials in all formats that are loaned for use outside the library. Include tools, cookware, sports equipment, realia, mobile devices, mobile hotspots and other physical items available for loan. Include interlibrary loan transactions if items were borrowed by library users. Do not include interlibrary loan items loaned to another library, returns/check-ins or tax forms.

#### **P13m / P13<sup>Calc.</sup>) Children's Circulation**

Report the total annual circulation including renewals of library materials primarily intended for children (ages 0 to 11) in all formats except downloadable items. Count all items loaned for use outside the library, regardless of the borrower's age. Include interlibrary loan transactions if items were borrowed by library users. Do not include interlibrary loan items loaned to another library.

Check the "not known" box if your library does not count children and adult circulation separately. Enter total circulation in P15m) Circulation – No Age Designation.

#### **P14m / P14<sup>Calc.</sup>) Adult Circulation**

Report the total annual circulation including renewals of library materials primarily intended for adults in all formats except downloadable items. Count all items loaned for use outside the library, regardless of the borrower's age. Include interlibrary loan transactions if items were borrowed by library users. Do not include interlibrary loan items loaned to another library.

Check the "not known" box if your library does not count children and adult circulation separately. Enter total circulation in P15m) Circulation – No Age Designation.

#### **P15m / P15<sup>Calc.</sup>) Circulation - No Age Designation**

Report the total annual circulation including renewals of library materials other than the adult and children's items reported in P13m and P14m. This number may be zero.

If your library does not distinguish between children's and adult circulation, report total circulation in all formats except downloadable items here.

#### **P16m<sup>Calc.</sup> / P16<sup>Calc.</sup>) Total Physical Circulation**

Total annual circulation of all physical library materials of all types including renewals.

#### **P69) Physical Circulation – Not Print or Audiovisual**

Circulation of all physical items **other than** print books, physical audio or video materials, and serials, including renewals.

These are materials in a fixed, physical format available for use outside the library. These can include a variety of item types, such as Wi-Fi hotspots, sewing machines, cake pans, tools, telescopes, board games, and video games.

## Downloadable Circulation

Electronic materials are distributed digitally online and accessed by computer, the internet, or a portable device such as an e-book reader. Electronic materials include e-books and downloadable electronic audio and video files. Electronic materials packaged together as a unit and checked out as a unit are counted as one use, for example, a reading device loaded with multiple e-book titles. Include circulation only for items that require a user authentication and have a limited period of use (due date).

### **P17) Downloadable E-books and E-serials Circulation**

Report the number of e-book and e-serial downloads during the year. An e-book is a book-length publication in digital form that consists of text and/or images and is readable on computers or other electronic devices (e-readers, tablets, etc.). E-serials are online content-based materials produced on a regular schedule that are readable on computers or other electronic devices. They may have comparable print versions or be only available digitally.

Include circulation of e-books and e-serials that are part of the library's collection and paid for by the library or supplied by a consortium such as the state or regional library system. Include circulation numbers only for digital titles that have a loan period and require a library card or user authentication to download. Do not include e-books or e-serials available for unlimited use, those that are in the public domain, not copyrighted, or are kept by the user and not returned to the library.

*Note: A circulating device that has more than one title on it is counted as one item and one circulation. Check the "not known" box if your library does not count e-book and e-serials circulation.*

## **Programs, Recordings, Activities**

In 2021, the Public Library Survey, which is the subset of data elements that are asked of all public libraries in the U.S., introduced a major change to the way programs and their attendance are tracked. The section expands in two ways: in-person programs are divided into those that take place onsite versus offsite, and the categories for indicating the intended audience of the program are expanded to include an early learning category (ages 0 to 5) and an intergenerational, "all ages" category.

## Program Elements Changes for 2021

### *New Categories for In-Person Programs*

**In-Person Onsite Programs:** These are traditional library programs, with people in attendance on library grounds. “Onsite” could mean inside the library building, any attached or detached meeting rooms, attached outside grounds, or any kind of bookmobile programming.

**In-Person Offsite Programs:** These are programs with a live audience in a non-library location. Examples are programs for daycares, senior housing, fairgrounds, parades, etc. Do not count home delivery as programming.

### *New Categories for Intended Age of Program Audience*

What was previously one category for children’s programs is now split into two: Children Ages 0-5, and Children Ages 6-11. If the library held children’s programs that were more general in age and could cover the full 0-11 range, report them under the 6-11 category.

**Ages 0-5:** A program session targeted at children ages 0-5 is any planned event for which the primary audience is infants, toddlers, or preschool-age children. Examples of these types of program sessions include, but are not limited to, story hours, every child ready to read programs, musical or sing-along events, and puppet shows. Include program sessions aimed at children ages 0-5 even if adult caregivers also attend.

**Ages 6-11:** A program session targeted at children ages 6-11 is any planned event for which the primary audience is elementary-school-age children. Examples of these types of program sessions include, but are not limited to, story hours, science events, crafting classes, and summer reading events. Include program sessions aimed at children ages 6-11 even if adult caregivers also attend with the children.

The other new age category, All Ages, is for programs that appeal to a wide audience from children to adults such as a family movie night. In contrast, an adult program is a program intended specifically for adults aged 19 and over, such as a retirement education program, and is not of interest to children or young adults.

**All Ages:** An all-ages program session is any planned event that is appropriate for any age group or multiple age groups. Include all-library, family, and inter-generational program sessions. Examples of these types of program sessions include, but are not limited to, family game nights, holiday events, storytelling programs, or chess clubs. Include all programs here that do not fit into the other age category elements.

Each program session should only be counted in one age category based on its primary target audience; do not include program sessions here that have already been counted in earlier age category elements. Avoid including program sessions that are targeted at more than one non-adult age category (and are not targeted at adults); these should be counted in the child or young adult age category that best represents the target audience.

### ***Hybrid Programs***

If you hold a hybrid program that has a partial live in-person audience and a partial live online audience, count it as one in-person program in the target age range. Do not count both the in-person attendance as well as the live virtual attendance.

### **Programs**

A program is any planned event which introduces the group attending to any library services or activities or which directly provides information to participants. Programs may cover use of the library, library services, or library tours. Programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need.

Examples of these types of programs include film showings; lectures; story hours; literacy, English as a second language, citizenship; and book discussions. If programs are offered as a series, count each program in the series. For example, a film series offered once a week for eight weeks should be counted as eight programs.

Note: Do not include library activities delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, resume writing assistance, homework assistance, and mentoring activities. One-on-one services provided by library staff may be counted as reference (P07).

Include all programs that are sponsored or co-sponsored by the library. Do not include programs sponsored by other groups that use library facilities.

### ***Onsite In-Person Programs***

An in-person onsite program session is any planned event that includes an in-person attendance option and takes place at library facilities. Examples include, but are not limited to, a job skills class in the library or a nature program on the library grounds.

### Self-Directed Activities

Self-directed activities are planned, independent activities available for a definite time period. Like programs, self-directed activities may require staff resources to plan and prepare, design or distribute, and they make take place on or off-site. They differ from programs in that activities are unstructured and depend on the participation of the attendee to create the experience, rather than a structured presentation offered to a group at a set time. Examples of self-directed activities include story walks, take-and-make activity kits, and online reading challenges.

If your library has multiple locations, please track self-directed activities at the outlet level (e.g., branches or bookmobile).

This does not include informal services such as homework help.

**P49m/P49<sup>Calc.</sup>) Self-Directed Activities**

Enter the number of planned, independent activities available for a definite time period.

**P50m/P50<sup>Calc.</sup>) Participation in Self-Directed Activities**

Number of participants, regardless of age, of planned, independent activities available for a definite time period.

Counting the number of participants for these activities can be a challenge, especially if staff are not present at all times. Depending on the activity, estimates of participation are acceptable, or other methods, e.g., asking story walk participants to put a pebble in a bucket when they finish the walk.

## Summer Learning Program

Public libraries incorporate summer learning programs with traditional summer reading programs. Summer learning programs focus on a variety of academic and developmental areas in addition to reading. Summer learning programs engage youth in activities that develop new skills in math, science, history, and art as well as reading. Summer learning is about exploring, creating, making, reading, and socializing. Summer learning programs help ensure that youth retain critical reading and academic skills they acquired during the school year through reading and learning activities over the school break.

### What type(s) of summer learning programs did this library offer for youth?

Select one of the following choices.

- Reading program
- Learning program other than reading
- Both reading and learning programs
- None

### If the library offered summer learning programs including reading programs, please provide the intended age-groups for the program.

Select Yes for all that apply.

- Preschoolers, birth to 5 years old
- Children, 5 to 11 years old
- Young adults, 12 to 18 years old

## Staff Information

Please report full time equivalent (FTE) amounts as of the last day of the reporting period (December 31). Include all positions funded in the library's budget whether those positions are filled or not. For hours not listed below, divide hours worked by 40 and calculate to two decimal points to determine the FTE. Note that data entered into outlet (m) fields automatically "roll up" into a total for the library administrative entity. The library administrative entity's field is locked.

### Common FTE include:

5 hours per 40-hour work week = .12 FTE	20 hours per 40-hour work week = .50 FTE
8 hours per 40-hour work week = .20 FTE	25 hours per 40-hour work week = .62 FTE
10 hours per 40-hour work week = .25 FTE	30 hours per 40-hour work week = .75 FTE
12 hours per 40-hour work week = .30 FTE	35 hours per 40-hour work week = .87 FTE
16 hours per 40-hour work week = .40 FTE	40 hours per 40-hour work week = 1.00 FTE

## Hours and Weeks of Service

In past years, we asked for the number of daily, weekly, and annual hours each library was open, with extra data elements to record seasonal weeks and hours. For the 2020 report, and for this year’s report as well, we disabled the elements for seasonal and daily hours, and began tracking two versions of being “open”:

- **Limited Service** = the library building was open to the public in a limited way, including reduced hours open, limits on the number of public members inside the physical building, appointment-only visits, visitor time limits, closed meeting rooms, etc.
- **Regular Service** = the library building is open to the public without any of the above restrictions.

Whether the building was open or closed, we are also tracking hours and weeks of curbside service, that is, contactless or minimal contact provision of circulation items, including curbside, lobby, or porch pickups, delivery (mail or drop-off), drive-thru windows, etc.

### Where to Count Hours and Weeks of Service

### Building Closed

#### **H13m) Weeks Closed Due to COVID-19**

This is the number of weeks during the year that due to the COVID-19 pandemic, an outlet building was physically closed and the public could not enter, when it otherwise would have been open. NOTE: Round to the nearest whole number.

An outlet is considered physically closed when the public cannot access any library buildings or bookmobiles, regardless of staff access. A building can be physically closed but still offer virtual, Wi-Fi, or “curbside” services outside the building.

If the building did not close to the public due to the pandemic, enter zero.

### Open with Limited or Regular Service

#### ***Number of Weeks Open to the Public***

#### **H14m) Weeks of Limited Service**

Enter the number of weeks during the year that an outlet implemented limited public occupancy practices for in-person services at the library building in response to the Coronavirus (COVID-19) pandemic. Limited public occupancy practices can include reduced hours open, limits on the number of public members inside the physical building, appointment-only on-site library use, visitor time limits, Grab n Go, Express Service, closed stacks or meeting rooms, etc.

Round to the nearest whole number. If building did not have a limited occupancy or similar practice due to the pandemic, enter zero.

#### **H15m) Weeks of Regular Service**

Enter the total number of weeks during the year that the outlet was open to the public with no restrictions.

#### **H11m<sup>Calc.</sup>) Weeks Library was Open**

Total number of weeks open to the public with either limited or regular service. The sum of H11m and H13m should be 52.

#### ***Weekly Hours Open to the Public***

When reporting weekly hours open, round to the nearest whole hour. (Round down if number is equal to or less than 0.4. Round up if number is equal to or greater than 0.5.)

If number of hours varied, enter the number of hours most commonly offered at the library or outlet.

#### **H16m/H16<sup>Calc.</sup>) Weekly Hours of Limited Service**

Enter the total number of hours the library was open to the public during weeks of limited service.

**H08m / H08<sup>Calc.</sup>) Weekly Hours of Regular Service**

Enter the total number of hours the library was open to the public during weeks of regular service.

***Annual Hours Open to the Public*****H12 / H12m) Annual Public Service Hours**

Enter the total hours the library building was open to the public in 2021 adjusting for holidays and temporary closures. Do include hours in which the building was open under limited service to the public.

Do not calculate minor variations in scheduled public service hours such as closing due to snow conditions or a parade. Do not include hours the building was closed to the public due to emergencies, natural disasters, renovations, budget shortfalls, or other events, even if the staff is scheduled to work.

For each bookmobile, count only the hours during which the bookmobile was open to the public. Do not include travel hours. For books-by-mail service, count the hours that the outlet was staffed for service.

**Curbside Service**

Include any contactless or minimal contact provision of circulation items. Similar terms could include curbside, lobby, vestibule, or porch pickups, delivery (mail or drop-off), drive-thru windows, etc.

Community engagement depends upon partnerships with diverse stakeholders from public and private spheres. development, public health, and environmental sustainability. As partners, library staff members join community organizations and serve on boards, committees and work groups and network in ways that emphasize the library's desire to learn and understand community issues. They help design and implement programs in ways that engage community-members directly in the work of social change.

When two or more organizations create a partnership they can engage with one another to varying degrees. Partners communicate information by attending meetings, distributing promotional materials, setting up displays, making presentations, etc. in order to raise awareness of community needs. At a cooperative level, partners provide mutual assistance in working toward a common goal by sponsoring activities or recruiting volunteers to address community needs. Fully committed partners work collaboratively to jointly develop and deliver a program or service by sharing staff, resources, and costs for the benefit of participants.
