

2025 Minnesota Public Library Annual Report Worksheet

You may use this worksheet to collect your library's data before entering it into the LibPAS online tool. Note that this is just a template – it doesn't include your library's prefilled data, and it doesn't perform calculations. But it will help you pinpoint which data you need to supply for the report.

For data element definitions, refer to the **Guide to Data Elements** available from the LibPAS documentation page. The **Page # in Guide** column in this worksheet shows you which page number to turn to in the **Guide to Data Elements**.

Complete your report using data/information for January 1 through December 31, 2025, unless otherwise indicated. Financial data should be reported for the fiscal year that ended in calendar year 2025.

This worksheet lists the data elements for both library administrative entities (headquarters) and library outlets (branches, central libraries, bookmobiles). Data elements for outlet-level information are indicated by an “m” in the name (as in “P06m Visits”).

For your convenience, information in some data elements will be pre-filled in LibPAS with the previous year's data. If the pre-filled answer is incorrect, please update. There are some data elements you will not be able to update:

Calculated: Information entered at the outlet level will usually be automatically calculated by LibPas into a total for the administrative entity.

Locked: Some prefilled data elements are not expected to change from year to year, and so are locked. If you find that a locked data element is filled incorrectly, please send corrections to Verena Getahun (verena.getahun@state.mn.us) at State Library Services.
